

## **Deschutes TMDL & Litigation**

### **Background**

The Deschutes River, Percival Creek, and Budd Inlet Tributaries (Phase 1) TMDL study area is located in south Puget in Thurston and Lewis Counties, Washington. The Washington Department of Ecology submitted the final Phase 1 Deschutes TMDL to EPA for approval on December 17, 2015.<sup>1</sup> That document addresses a total of 73 waterbody-pollutant combinations, caused by temperature, dissolved oxygen [DO], pH, fecal coliform, and fine sediment.

### **Litigation**

On September 6, 2017, Northwest Environmental Advocates (NWEA) filed a complaint against EPA alleging violation of section 303(d)(2) of the Clean Water Act (CWA) for failure to act on the Deschutes River TMDL submission. Section 303(d)(2) requires EPA to either approve or disapprove a state's TMDL submission within 30 days of submittal.

(b) (5)

### **Current Status**

The CWA requires EPA to either approve or disapprove state-submitted TMDLs, and if we disapprove, we are required to develop a replacement TMDL within 30 days. (b) (5)

### **Next Steps**

A briefing on the proposed TMDL decisions for the RA is currently scheduled for May 21<sup>st</sup>. In addition, the Region will coordinate with HQ OWOW staff on needed background/briefing materials for AAOW. Once final decisions have been made on the TMDL, the Region will need to work quickly with HQ and the State on the disapproved segments to determine how replacement TMDLs will be developed.

---

<sup>1</sup> Marine segments (Phase 2, Budd Inlet) are planned for completion in 2020.

**Subject:** Note for Dave Ross/OW-IO re: Deschutes WA TMDLs -- potential disapprovals

John – here is a note and paper you could send to Dave about R10's potential disapproval of a number of the Deschutes WA TMDLs:

---

Dave,

(b) (5)

[Redacted content]

We understand the RA is aware that his staff are likely to recommend disapproval of some of the TMDLs. However, he is not scheduled to be briefed in detail until late May, which means there won't be much time for dialogue with the RA after he is briefed before the June 29 deadline. In case you would like to talk to the RA sooner, we prepared the attached paper to provide more background information on the issue.

We can provide additional information if that would be helpful.
